

- ① KEY shows the location of parts diagramed in the illustration.
- ② Parts numbers begin with `V` and `W` are standard parts of the market.
- ③ `LH` and `RH` on the parts name are described against the moving direction of the machine or are described on the condition how to install parts on the machines.

- ④ SPC : The following symbol classifies parts to be used for machines.

`*´ means standard parts.

`T´ shows that the parts can be installed as optional parts.

`R´ shows that the parts can be used as applicable parts to replace originally equipped parts.

- ⑤ Upper column : QTY shows the number of parts to be used for one unit of machine.

`M´ is indicated for parts supplied by a meter long.

`l´ is indicated for parts supplied by liter.

`AR´ is indicated for parts need to be adjusted or regulated.

Lower column : serial number

—229 means serial number up to 229.

230— means serial number 230 and after.

- ⑥ ITC : Interchangeability

`1´...OLD ← NEW

New parts can be used in place of the old parts.

`2´...OLD → NEW

Old parts can be used in place of the new parts.

`3´...OLD →← NEW

Old parts and new parts can not be replaced each other.

- ⑦ COL : Color code

Color is signified with color code number for colored parts.

Please see the color list shown in the next page.

- ⑧ GRP : Parts shown in this column can be replaced by SET parts.

Example : Parts marked ① can be replaced by parts marked ②, and ③ for ④, so the rest follow in the same alphabetical order.

- ⑨ Remarks

* Other maker's part code number is shown in this column.

* When Fig. No. is shown in the Remark column of SET parts or ASSY parts, each of their component parts are listed in said Fig. No.

This exploded view diagram illustrates the assembly of a washing machine door. The components are labeled with numbers 1 through 43. The main door frame (43) is shown at the top right, with a circular opening (8) and a handle (6). The door panel (1) is shown in the center, with a handle (40) and a latch mechanism (38). The door is mounted on a base (41) which includes a hinge (37) and a latch (35). The base is supported by a frame (22) which includes a hinge (34) and a latch (36). The frame is mounted on a wall (33) using a bracket (39). The diagram shows the relationship between the door, the panel, the base, and the frame, with dashed lines indicating the assembly path.

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or engine housing. The main components are labeled as FIG. 202 (a large circular housing), FIG. 206 (a central shaft assembly), and FIG. 215 (a top cover or manifold). Numerous smaller parts are shown in their relative positions, with callouts 50 through 77 indicating specific components like bolts, washers, seals, and sub-assemblies. The diagram uses dashed lines to show the alignment and assembly sequence of the parts.
